

Fruit Smash — Rulebook

⚙️ **Gabriel Toschi**

👥 **2 to 6 players**

⌚ **10 min**

⚖️ **children & party game**

We only wanted a smoothie, but all the fruits are flying in the table... In **Fruit Smash**, be fast to smash the right fruits in each round and be the first to shout a big **SMASH!** on the right time!

🔨 Setup

1. Shuffle all 36 cards and **deal a secret pile face-down for every player** as equally as possible. Remaining cards will not be used.
2. Place your pile in front of you and **don't look** what the cards it has.
3. Choose a space next to you on the table to place your **collected cards**.

🎯 Goal

Collect more cards than your opponents by slapping the right cards each round.

🎲 How to Play

Fruit Smash is played on a series of simultaneous rounds. All players follow those same steps, at the same time, until all cards on the piles are used:

1. In the count of three, all players **flip the top card** in their pile to the center of the table.
2. If a **fruit is more common than all others** on the revealed cards, go fast and slap a card with this fruit to collect it. If you slap a card without the common fruit, discard it instead.
3. If **no fruit** is more common, the first player that **slaps the center** of the table and **shout SMASH** collect all cards flipped this round. If you flip wrongly, you cannot slap a card in the next round (but it will still flip one).
4. You can only slap once each round. Discard the cards that weren't slapped to start a new round.

When all cards from the piles are used, the game ends. **The player who collected more cards wins!** Tied players share the victory.
